WILLIAM R. DURDEN

Certified Public Accountant

820 11TH AVENUE FRANKLINTON, LOUIS1ANA 70438 (985)839-4413 FAX (985)839-4402

MEMBER A.I.C.P.A.

MEMBER L.C.P.A.

The Honorable Mayor Harold J. Smith and Members of the Board of Aldermen Town of Kentwood, Louisiana

Commissioners:

I have audited the accompanying financial statements of the governmental activities, the business-type activities, and each major fund of the Town of Kentwood, Louisiana, as of December 31, 2004, and for the year then ended, which collectively comprise the Town's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Town of Kentwood's management. My responsibility is to express an opinion on these basic financial statements based on my audit.

I conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts, and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe that my audit provides a reasonable basis for my opinion.

The accompanying financial information listed as supporting schedules in the table of contents is presented for purposes of additional analysis and is not a required part of the financial statements of the Town of Kentwood. The information has been subjected to the auditing procedures applied in the examination of the financial statements and, in my opinion, is fairly stated in all material respects in relation to the financial statements taken as a whole.

In my opinion, the basic financial statements and supplemental information referred to in the above paragraphs, present fairly, in all material respects, the financial position of the governmental activities, business-type activities, and each major fund, of the Town of Kentwood, Louisiana, as of December 31, 2004, and the respective changes in financial position and cash flows of it's proprietary fund types, for the year then ended in conformity with accounting principles generally accepted in the United States of America.

WILLIAM R. DURDEN

Certified Public Accountant

820 11TH AVENUE FRANKLINTON, LOUISIANA 70438 (985)839-4413 FAX (985)839-4402

MEMBER A.I.C.P.A. MEMBER L.C.P.A.

Page 2

In accordance with <u>Government Auditing Standards</u>, I have also issued my report dated June 24, 2005, on my consideration of the Town of Kentwood, Louisiana's internal control over financial reporting and my tests of its compliance with certain provisions of laws, regulations, contracts, and grants. That report is an integral part of an audit performed in accordance with <u>Government Auditing Standards</u> and should be read in conjunction with this report in considering the results of my audit.

Management's Discussion and Analysis on pages 3-15 is not a required part of these basic financial statements but is supplemental information required by the Governmental Accounting Standards Board. I have applied certain limited procedures, which consisted primarily of inquires of management regarding the methods of measurement and presentation of the supplemental information. However, I did not audit the information and express no opinion on it.

William R. Durden, CPA

June 24, 2005

Management's Discussion and Analysis As of and for the Year Ended December 31, 2004

Introduction

The Town of Kentwood, Louisiana (the Town) is pleased to present its Annual Financial Statements developed in compliance with Governmental Accounting Standards Board Statement No. 34, Basic Financial Statements - Management's Discussion and Analysis - For State and Local Governments (GASB 34), and related standards. Although the Town was not required to implement GASB 34 until the fiscal year ending December 31, 2003, management elected early implementation in the fiscal year ending December 31, 2002 to provide financial statement users a more detailed and comprehensive analysis of the Town's financial performance. This is the third year of presentation under the new GASB 34 format.

The Town's discussion and analysis is designed to (a) assist the reader in focusing on significant financial issues, (b) provide an overview of the Town's financial activity, (c) identify changes in the Town's financial position, (d) identify any significant variations from the Town's financial plan, and (e) identify individual fund issues or concerns.

Since Management's Discussion and Analysis (MD&A) is designed to focus on the current year's activities, resulting changes, and currently known facts, please read it in conjunction with the Town's financial statements on pages 12 through 42 of this report.

Financial Highlights

- At December 31, 2004, the Town's assets exceeded its liabilities by \$6,599,564 (net assets). Of this amount, \$2,106,902 (unrestricted net assets) may be used to meet the Town's ongoing obligations to its citizens.
- For the year ended December 31, 2004, the Town's total net assets increased by \$603,304.
- At December 31, 2004, the Town's governmental funds reported combined ending fund balances of \$1,852,854, an increase of \$98,208 for the year. Of this amount, 82% is available for spending at the Town's discretion (unreserved fund balances).
- At December 31, 2004, the Town's proprietary funds reported combined ending net assets of \$3,259,288, a decrease of \$370,122 for the year. Of this amount, approximately 21%, or \$696,451, is available for spending at the Town's discretion (unrestricted net assets).
- For the year ended December 31, 2004, the Town's total debt decreased by \$13,270, or approximately 2%, due primarily to revenue bond principal payments.

Overview of the Annual Financial Report

The financial statement focus is on both the Town as a whole and on the major individual funds. Both perspectives, government-wide and major funds, allow the user to address relevant questions, broaden a basis for comparison, and enhance the Town's accountability. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The MD&A is intended to serve as an introduction to the Town's basic financial statements, which consist of three components: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements.

Management's Discussion and Analysis As of and for the Year Ended December 31, 2004

Government-Wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the Town's finances in a manner similar to a private-sector business. Governmental and business-type activities are presented in separate columns along with a total column for the primary government.

The Statement of Net Assets presents information on the Town's assets and liabilities using the accrual basis of accounting, in a manner similar to the accounting used by private business enterprises. The difference between the assets and liabilities is reported as net assets. Over time, the increases or decreases in net assets and changes in the components of net assets may serve as a useful indicator of whether the financial position of the Town is improving or deteriorating.

The Statement of Activities presents information showing how the Town's net assets changed during the most recent fiscal year, focusing on both the gross and net costs of various activities, both governmental and business-type, that are supported by the Town's general tax and other revenues. This is intended to summarize and simplify the reader's analysis of the cost of various governmental services and/or subsidy to various business-type activities.

In both of the government-wide financial statements, the Town's activities are divided into two types:

- Governmental activities Most of the Town's basic services are reported here, including general government, public safety, streets and sanitation, health and welfare, and culture and recreation. These activities are financed primarily by property taxes, franchise taxes, sales taxes, fire insurance rebates, and fines.
- Business-type activities The Town charges a fee to customers to help it cover all of the cost of the services provided. The Town's water, natural gas, and sewer utility systems are reported in this section.

The government-wide financial statements include the Town of Kentwood, Louisiana (primary government) only and can be found on pages 18 through 20 of this report.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Town, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related and legal requirements. The Town uses two categories of funds to account for financial transactions: governmental funds and proprietary funds. Traditional users of governmental financial statements will find the fund financial statements presentation more familiar.

Management's Discussion and Analysis As of and for the Year Ended December 31, 2004

Governmental funds are used to account for most of the Town's basic services. However, unlike the governmenta-wide financial statements, governmental fund financial statements focus on how money flows into and out of those funds and the balances that are left at year-end that are available for spending. These funds are reported using the modified accrual basis of accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the Town's general government operations and the basic services it provides. Governmental fund information helps to determine whether there are more or fewer financial resources that can be spent in the near future to finance the Town's programs. The basic governmental fund financial statements can be found on pages 22 through 25 of this report.

Proprietary funds account for water, natural gas, and sewer utility services provided by the Town to its customers, as well as the Town's housing assistance program. Proprietary funds statements provide the same type of information as the government-wide financial statements, but the fund presentation provides more detail. The basic proprietary fund financial statements can be found on pages 26 through 31 of this report.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, there are differences in the information presented for government funds and for governmental activities in the government-wide financial statements. Review of these differences provides the reader of the financial statements insight on the long-term impact of the Town's more immediate decisions on the current use of financial resources. Both the governmental fund Balance Sheet and the governmental fund Statement of Revenues, Expenditures and Changes in Fund Balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities. The reconciliations can be found on pages 23 and 25 of this report.

Notes to the Financial Statements

The notes to the financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 33 through 50 of this report.

Management's Discussion and Analysis As of and for the Year Ended December 31, 2004

Government-Wide Financial Analysis

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. The following table provides a summary of the Town's net assets for the current year as compared to the prior year. For more detailed information, see the Statement of Net Assets on page 18 of this report.

Net Assets December 31, 2004 and 2003

Approximately 62% of the Town's net assets reflects its investment in capital assets (land, buildings, equipment, infrastructure, and improvements) net of any outstanding related debt used to acquire those capital assets. These capital assets are used to provide services to citizens and do not represent resources available for future spending. Although the Town's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets cannot be used to liquidate these liabilities.

Approximately 6% of the Town's net assets represents resources that are subject to external restriction on how they may be used. The Town's restricted net assets consist of cash reserves required by revenue bond agreements and cash for customer deposits net of corresponding liabilities.

Approximately 32% of the Town's net assets are unrestricted and may be used to meet the Town's ongoing obligations to its citizens.

At the end of the current fiscal year, the Town was able to report positive balances in all three categories of net assets, both for the Town as a whole, as well as for separate governmental and business-type activities. The same held true for the prior fiscal year.

The Town's activities increased its total net assets by \$603,304, with governmental activities increasing net assets by \$973,426 and business-type activities decreasing net assets by \$370,122.

Management's Discussion and Analysis As of and for the Year Ended December 31, 2004

In order to further understand what makes up the changes in net assets, the following table provides a summary of the results of the Town's activities for the current year as compared to the prior year. An analysis of the primary sources of these changes follows the table. For more detailed information, see the Statement of Activities on pages 19 and 20 of this report.

Changes in Net Assets For the Years Ended December 31, 2004 and 2003

Governmental Activities

The Town's governmental net assets increased by \$973,426, or 41% of the prior year ending net assets, to \$3,340,276. The overall increase in net assets is partially offset by a \$355,000 transfer of funds from the Town's business-type activities. The change in net assets is \$1,043,277 more than the prior year, this difference being caused by a \$761,825 decrease in revenues a \$153,452 decreases in expenses, and an increase in transfers of funds from the Town's business-type activities of \$128,000, respectively, over prior year amounts.

Management's Discussion and Analysis As of and for the Year Ended December 31, 2004

The increase in revenues noted above is primarily comprised of decreased charges for services and an increase in capital grants and contributions. The decrease in charges for services of \$36,423 is largely attributable to many patrons taking advantage of the Town's offer to pay one-time lifetime cemetery fees in lieu of annual fees in the prior year. The increase in capital operating grants and contributions of \$78,748 is due mostly to the receipt of a High School Air Conditioning Grant of \$91,768 in the prior year. The increase in capital grants and contributions is due to 2003 LCDBG Grant Revenue of \$881,971. The corresponding expenditures is recorded as construction in progress the Statement of Net Assets.

The decrease in expenses noted above is primarily comprised of increased general & administrative expenses and decreased fire department expenses. The increase in general and administrative expense of \$55,092 consists of a decrease in a one-time air-conditioning grant from the Town to the local high school of \$106,769 and an increase in health insurance costs of \$68,001, increase in clerical salary of \$33,150, increase in payroll taxes of \$31,808 which consist of payroll taxes for all departments and increases in various other expense accounts totaling \$28,902. The decrease in fire department expense of \$130,490 is largely attributable to the decrease in purchase of fixed assets for the local fire district.

Business-Type Activities

The Town's business-type net assets decreased by \$370,122, or 10% of the prior year ending net assets, to \$3,259,288. The overall decrease in net assets is partially offset by a \$355,000 transfer of funds to the Town's governmental activities. The decrease in net assets is \$129,042 more than the decrease in the prior year. This difference is caused by an increase of \$128,000 in transfer of funds to the Town's governmental activities.

The increase in revenues of \$107,956 noted above consists primarily of an increase in housing assistance payments of \$69,839.

Fund Financial Analysis

As noted earlier, the Town uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

The focus of the Town's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the Town's financing requirements. In particular, unreserved fund balance may serve as a useful measure of the Town's net resources available for spending at the end of the year. The basic governmental fund financial statements can be found on pages 22 through 25 of this report.

Management's Discussion and Analysis As of and for the Year Ended December 31, 2004

At the end of the current year, the Town's governmental funds reported combined ending fund balances of \$1,852,854. \$325,540 is reserved for capital projects, and \$1,527,314 is unreserved and available for spending at the Town's discretion. This represents an increase of \$98,208, or 6% over the prior year's ending balances.

The general fund is the chief operating fund of the Town. At the end of the current year, the total fund balance for the general fund was \$982,203, of which, \$325,540 was reserved for capital projects, and \$656,663 was unreserved. As a measure of the general fund's liquidity, it may be useful to compare both unreserved fund balance and total fund balance to total fund expenditures. Unreserved fund balance represents 48% of total general fund expenditures, while total fund balance represents 71% of the same amount.

During the current year, the Town's general fund balance increased by \$4,176.

Proprietary Funds

The Town's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

General Fund Budgetary Highlights

The Town of Kentwood demonstrated legal compliance by adopting and amending its budget in accordance with provisions of the Local Government Budget Act. As required by state law, actual revenues and other sources were within 5% of budgeted revenues and other sources, and actual expenditures did not exceed budgeted expenditures and other uses by 5%.

For the general fund, actual revenues and other sources were less than final budgeted amounts by \$7,779. Final budgeted expenditures and other uses exceeded actual amounts by \$11,955. Final budgeted net change in fund balance was \$4,176 less than actual amounts.

For the general fund, original budgeted revenues and other sources were \$1,368,570 and final budgeted revenues and other sources were \$1,389,800. Original budgeted expenditures and other uses were \$1,370,220 and final budgeted expenditures and other uses were \$1,389,800.

Significant variations from the general fund's original and final amended budgets were as follows:

- Budgeted operating transfers in from the utility fund were decreased by \$45,000 because it was determined that the funds would not be needed in the general fund due to changes in estimates.
- Budgeted state supplemental pay was increased by \$29,000 because it was not originally budgeted.

Management's Discussion and Analysis As of and for the Year Ended December 31, 2004

Capital Assets and Debt Administration

Capital Assets

The Town elected early implementation of GASB 34 in the fiscal year ending December 31, 2002. However, as a Phase III government (a government with annual revenues of less than \$10 million), the Town elected not to retroactively report infrastructure assets prior to implementation. Historically, a government's largest group of assets, infrastructure assets (roads, bridges, street lighting, etc.) have not been reported nor depreciated in governmental financial statements. Beginning with the fiscal year ended December 31, 2002, these assets are now valued and reported within the governmental activities column of the government-wide financial statements.

The Town's investment in capital assets for its governmental and business-type activities as of December 31, 2004 amounts to \$4,008,097 (net of depreciation). The total decrease in the Town's investment in capital assets for the current fiscal year was \$188,771 (net of depreciation).

Major capital asset events during the current year included sewer utility system extensions, sidewalk improvements, and purchases of law enforcement equipment, street maintenance equipment, and computer equipment.

The following table provides a summary of the Town's capital assets (net of depreciation) at the end of the current year as compared to the prior year. For more detailed information, see Note 7 to the financial statements on pages 43 and 44 of this report.

Capital Assets (Net of Depreciation) December 31, 2004 and 2003

In addition to capital assets recorded in the above schedule, the Town recorded \$881,971 in construction in progress at December 31, 2004 for the 2003 LCDBG Sewer Construction Project.

Management's Discussion and Analysis As of and for the Year Ended December 31, 2004

Long-Term Debt

At December 31, 2004, the Town had total debt outstanding of \$791,004. Of this total, \$13,947 is due within one year and \$777,057 is due within greater than one year. The following table provides a summary of the Town's outstanding debt at the end of the current year as compared to the prior year. For more detailed information, see Note 12 to the financial statements on pages 38 of this report.

Other Factors Affecting the Town

The Town of Kentwood's management approach is conservative. When possible, the Mayor and Aldermen attempt to provide services to the Town based on existing revenues and to finance long-term projects only when absolutely necessary. The Town actively pursues grant funds to minimize the cost of major projects to its citizens. The Town also attempts to keep utility rates at the minimum required to cover the costs of utility system operation. However, gas system rates are largely dependent on the amounts charged the Town for the cost of gas sold.

Contacting the Town's Financial Management

This financial report is designed to provide the Town's citizens, taxpayers, creditors and investors with a general overview of the Town's finances and show the Town's accountability for the money it receives. Questions regarding this report or requests for additional information should be addressed to the Town of Kentwood, 308 Avenue G, Kentwood, Louisiana 70444, telephone (985) 229-3451.

Statement F

Reconciliation of the Changes in Fund Balances of Governmental Funds to the Statement of Activities

For the Year Ended December 31, 2004

\$ 98,208

Amounts reported for governmental activities in the statement of activities are different because:

Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of these assets is allocated over their estimated useful lives as depreciation expense. These differences consist of:

| 2003 LCDBG Sewer Improvements | 881,971 |
|-------------------------------|---------|
| Capital outlay | 52,730 |
| Depreciation expense | -59,483 |

Basic Financial Statements

Notes to the Financial Statements

As of and for the Year Ended December 31, 2004

Introduction

The Town of Kentwood, Louisiana was incorporated in March of 1893 under the provisions of the Lawrason Act. The Town operates under a Mayor/Board of Aldermen form of government, with the Mayor and each of five aldermen elected at large for four-year terms. The Mayor and Aldermen are compensated per diem for each meeting attended; in addition, the Mayor receives a salary. Kentwood is located directly off Interstate I-55 in the northern section of Tangipahoa Parish. The Town's total population is 2,205 as reported by the U.S. Census Bureau, Census 2000. The Town provides police and fire protection, services to maintain and develop streets, drainage, and sanitation, support of recreation activities, general and administrative services, and utilities services for area residents. The Town provides water, gas, and sewer utility services to 870 water customers, 508 gas customers, and 796 sewer customers inside and outside of the Town limits. The Town employs 25 full-time employees in addition to the Mayor and Board of Aldermen.

Governmental Accounting Standards Board (GASB) Statement No. 14, *The Reporting Entity*, established criteria for determining the governmental reporting entity and component units that should be included within the reporting entity. Under provisions of this statement, the Town is considered a primary government, since it is a special purpose government that has a separately elected governing body, is legally separate, and is fiscally independent of other state and local governments. As used in GASB Statement No. 14, fiscally independent means that the Town may, without the approval or consent of another governmental entity, determine or modify its own budget, levy its own taxes or set rates or charges, and issue bonded debt. There are no component units which the Town of Kentwood has an oversight relationship.

1. Summary of Significant Accounting Policies

A. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of nets assets and the statement of changes in net assets) report information on all nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

As of and for the Year Ended December 31, 2004

Separate financial statements are provided for governmental funds and proprietary funds. Major individual governmental funds and major individual enterprise funds are presented as separate columns in the fund financial statements.

B. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessment receivable, if any, due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the government.

The Town reports the following major governmental funds:

The General Fund is the Town's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The Special Revenue Funds account for the proceeds of specific revenue sources that are legally restricted to expenditures for specific purposes.

The Town reports the following major proprietary funds:

The Enterprise Funds account for operations (a) that are financed and operated in a manner similar to private business enterprise where the intent of the governing body is that costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user fees, or (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

As of and for the Year Ended December 31, 2004

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the option of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The government has elected not to follow subsequent private-sector guidance.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule, if applicable, are payments-in-lieu of taxes and other charges between the governments enterprise operations. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the proprietary funds are user charges for the services provided by the enterprise funds. Operating expenses for enterprise funds and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the Town's policy to use restricted resources first, then unrestricted resources as they are needed.

C. Deposits and Investments

The Town's cash and cash equivalents are considered to be cash on hand, demand deposits, time deposits, and short-term investments with original maturities of three months or less from the date of acquisition. State law and the Town's investment policy allow the Town to invest in collateralized certificates of deposit, government-backed securities, commercial paper, the state-sponsored investment pool, and mutual funds consisting solely of government-backed securities.

Investments for the Town are reported at fair market value. The state investment pool, LAMP, operates in accordance with state laws and regulations. The reported value of the pool is the same as the fair value of the pool shares.

As of and for the Year Ended December 31, 2004

D. Receivables and Payables

Activity between funds that are representative of lending borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

All trade and property tax receivables are shown net of an allowance for uncollectible amounts.

Property taxes are levied on a calendar year basis and become due on January 1 of each year. The following is a summary of authorized and levied ad valorem taxes:

| | Authorized | Levied | Expiration |
|----------------------------|------------|---------|------------|
| | Millage | Millage | Date |
| General Corporate Purposes | 6.40 | 6.40 | None |

Sales and use taxes are levied at two percent. The proceeds of these sales and use taxes are dedicated as follows:

- 1) One percent sales and use tax dedicated to general corporate purposes. This tax does not expire.
- 2) One percent sales and use tax of which 50% of the proceeds is dedicated for use in constructing, acquiring, improving, maintaining, and operating solid waste collection and disposal facilities; the remainder of the proceeds are to be used for the purpose of paying police officers and other Town employees' salaries and other general operating costs of the Town; constructing and acquiring additions, extensions, and improvements to the sewerage collection, disposal, and treatment plant and system, the waterworks plant and system, and the natural gas system; constructing, paving, resurfacing, and improving streets, sidewalks, roads, bridges, alleys, drains, and drainage canals, and acquiring necessary equipment for the maintenance thereof; acquiring fire protection and public safety equipment and facilities; and constructing or improving public buildings, jails, public parks and recreation facilities, including the necessary equipment and furnishings therefor. This tax expires on June 30, 2023.

E. Inventories and Prepaid Items

All inventories are valued at cost using the first-in/first-out method. Inventories of the governmental funds are recorded as expenditures when consumed rather than when purchased. Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

As of and for the Year Ended December 31, 2004

F. Restricted Assets

Certain proceeds of the enterprise fund revenue bonds, as well as certain resources set aside for their repayment, are classified as restricted assets because their use is limited by applicable bond covenants.

G. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are capitalized at historical cost or estimated cost if historical cost is not available. Donated assets are recorded as capital assets at their estimated fair market value at the date of donation. The municipality maintains a threshold level of \$500 or more for capitalizing capital assets.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. For the current fiscal year, the Town did not incur construction period interest costs.

All capital assets, other than land, are depreciated using the straight-line method over the following useful lives:

| Buildings & Improvements | 20 - 40 Years |
|--------------------------|---------------|
| Machinery and Equipment | 5 - 15 Years |
| Infrastructure | 20 - 40 Years |
| Gas System | 20 - 40 Years |
| Water System | 20 - 40 Years |
| Sewer System | 20 - 40 Years |

H. Compensated Absences

The Town has the following policy related to vacation and sick leave:

All regular employees, after one year of employment, are entitled to annual vacation and sick leave as follows:

| Years of Service | 1-5 | 6+ |
|----------------------|-----|----|
| Vacation Days/Year | 10 | 15 |
| Sick Leave Days/Year | 12 | 12 |

Office (administrative) personnel are allowed to accumulate 210 hours of vacation leave; all other employees working eight hours per day are allowed to accumulate 240 hours of vacation leave. There is no limit on the accumulation of sick leave.

As of and for the Year Ended December 31, 2004

When workmen's compensation is due an employee, that employee has the option of using accrued annual vacation and sick leave while drawing workmen's compensation, but must remit to the Town all workmen's compensation benefits received. A law officer if abled while performing duty of a hazardous nature may be granted a leave of absence by the Town with fail pay data a true period of disability, provided all workmen's compensation benefits are remitted to the Town.

In accordance with GASB-16, Accounting for Compensated Absences, no liability has been accrued for unused employee sick leave.

I. Long-Term Obligations

In the government-wide financial statements and the proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts as well as bond issuance costs during the current period. The face amount of the debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

J. Fund Equity

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

K. Comparative Data/Reclassifications

Certain amounts presented in the prior year data have been reclassified in order to be consistent with the current year's presentation.

L. Extraordinary and Special Items

Extraordinary items are transactions or events that are both unusual in nature and infrequent in occurrence. Special items are transactions or events within the control of the municipality, which are either unusual in nature or infrequent in occurrence.

As of and for the Year Ended December 31, 2004

M. Estimates

The preparation of financial statements in continuously with a country principles generally accepted in the council States of America require management to make estimates and dissumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reported period. Actual results could differ from those estimates.

N. Reconciliations of Government-Wide and Fund Financial Statements

Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net assets is presented in Statement D of the basic financial statements. Explanation of certain differences between the governmental fund statement of revenues, expenses, and changes in fund balances and the government-wide statement of activities is presented in Statement F of the basic financial statements.

2. Stewardship, Compliance and Accountability

The Town uses the following budget practices:

- 1. The Town Clerk prepares a proposed budget and submits same to the Mayor and Board of Aldermen no later than fifteen days prior to the beginning of each fiscal year.
- 2. A summary of the proposed budget is published and the public notified that the proposed budget is available for public inspection. At the same time, a public hearing is called.
- 3. A public hearing is held on the proposed budget at least ten days after publication of the call for the hearing.
- 4. After the holding of the public hearing and completion of all action necessary to finalize and implement the budget, the budget is adopted through passage of an ordinance prior to the commencement of the fiscal year for which the budget is being adopted.
- Budgetary amendments involving the transfer of funds from one department, program or function to another
 or involving the increase in expenditures resulting from revenues exceeding amounts estimated, require the
 approval of the Board of Aldermen.
- 6. All budgetary appropriations lapse at the end of each fiscal year.
- 7. Budgets for the general and enterprise funds are adopted on a basis consistent with generally accepted accounting principles (GAAP). Budgets for enterprise funds are presented on the accrual basis of accounting. Other governmental funds are presented on the modified accrual basis of accounting. Accordingly, the budgetary comparison schedules present actual expenditures in accordance with the accounting principles generally accepted in the United States on a basis consistent with the legally adopted budgets as amended. All budgetary amounts presented reflect the original budget and the amended budget (which have been adjusted for legally authorized revisions of the annual budget during the year).

As of and for the Year Ended December 31, 2004

3. Cash and Cash Equivalents

At December 31, 2004 the Town has cash at the street of the configuration of the configuratio

| Cash on Hand | \$ |
|--|--------------|
| Demand Deposits | 482,175 |
| Interest-Bearing Demand Deposits | 148,030 |
| Time Deposits (See Note 4) | 209,096 |
| Louisiana Asset Management Pool (See Note 4) | 1,624,481 |
| | \$ 2,464,119 |

These deposits are stated at cost, which approximates market. Under state law, these deposits (or the resulting bank balances) must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent. These securities are held in the name of the pledging fiscal agent bank in a holding or custodial bank that is mutually acceptable to both parties.

At December 31, 2004, the municipality has \$2,445,062 in deposits (collected bank balances). These deposits are secured from risk by \$390,000 of federal deposit insurance and \$2,055,062 of pledged securities held by the custodial bank in the name of the fiscal agent bank (GASB Category 3).

Even though the pledged securities are considered uncollateralized (Category 3) under the provisions of GASB Statement 3, Louisiana Revised Statute 39:1229 imposes a statutory requirement on the custodial bank to advertise and sell the pledged securities within 10 days of being notified by the municipality that the fiscal agent has failed to pay deposited funds upon demand.

4. Investments

Investments are categorized into these three categories of credit risk:

1) Insured or registered, or securities held by the town or its agent in the Town's name, 2) uninsured and unregistered, with securities held by the counterparty's trust department or agent in the Town's name, or 3) uninsured and unregistered, with securities held by the counterparty, or by its trust department or agent but not in the Town's name.

All investments held by the Town fall into category I credit risk, defined as "insured or registered, or securities held by the Town or its agent in the Town's name." In accordance with GASB 31, Accounting and Financial Reporting for Certain Investments and for External Investment Pools, all investments are carried at fair market value, with the estimated fair market value based on quoted market prices.

As of and for the Year Ended December 31, 2004

At fiscal year-end, the Town's investment balances were as follows:

| 3JE | | |
|------------|--|-----------|
| America. | | Vaine |
| \$ 209.09 | 6 \$ | 209,096 |

Fair

In accordance with GASB Codification Section I50.165, the investment in LAMP at December 31, 2004, is not categorized in the three risk categories provided by GASB Codification Section I50.164 because the investment is in the pool of funds and therefore not evidenced by securities that exist in physical or book entry form. LAMP is administered by LAMP, Inc., a nonprofit corporation organized under the laws of the State of Louisiana, which was formed by an initiative of the State Treasurer in 1993. The corporation is governed by a board of directors comprising the State Treasurer, representatives from various organizations of local government. the Government Finance Office Association of Louisiana, and the Society of Louisiana CPAs. Only local governments having contracted to participate in LAMP have an investment interest in its pool of assets. The primary objective of LAMP is to provide a safe environment for the placement of public funds in short-term, high-quality investments. The LAMP portfolio includes only securities and other obligations in which local governments in Louisiana are authorized to invest. Accordingly, LAMP investments are restricted to securities issued, guaranteed, or backed by the U. S. Treasury, the U. S. Government, or one of its agencies, enterprises, or instrumentalities, as well as repurchase agreements collateralized by those securities. The dollar weighted average portfolio maturity of LAMP assets is restricted to not more than 90 days, and consists of no securities with a maturity in excess of 397 days. LAMP is designed to be highly liquid to give its participants immediate access to their account balances.

5. Receivables

In the government-wide statements, receivables consist of all revenues earned at year-end and not yet received. Allowances for uncollectible accounts are based upon historical trends and the period aging and write-off of accounts receivable. Major receivables balances for the governmental activities include sales taxes, franchise taxes, occupational licenses, and fines. Business-type activities report utilities earnings as their major receivable.

In the fund financial statements, material receivables in governmental funds include revenue accruals such as sales tax, franchise taxes, occupational licenses, fines, and other similar intergovernmental revenues since they are usually both measurable and available. Non-exchange transactions collectible but not available are deferred in the fund financial statements in accordance with modified accrual, but not deferred in the government-wide financial statements in accordance with the accrual basis. Interest and investment earnings are recorded only if paid within 60 days since they would be considered both measurable and available. Proprietary fund revenues consist of all revenues earned at year-end and not yet received. Utility accounts receivable comprise the majority of proprietary fund receivables. Allowances for uncollectible accounts receivable are based upon historical trends and the periodic aging and write-off of accounts receivable.

As of and for the Year Ended December 31, 2004

The Governmental Fund receivables at December 31, 2004 consist of the following:

| | _ | General Fund | Volunteer Fire Department | 2003 LCDBG Capital Project Fund | Total Governmental Funds |
|---------------------------------|-----|-----------------|---------------------------------|---------------------------------------|--------------------------|
| Taxes: | | | | | |
| Ad Valorem | \$ | 35,059 \$ | - \$ | - \$ | 35,059 |
| Public Utility Franchise | | 14,796 | - | - | 14,796 |
| Intergovernmental: | | | | | |
| Tangipahoa Parish School Board, | | 47,895 | - | - | 47,895 |
| State of Louisiana, Beer Tax | | 1,258 | - | - | 1,258 |
| Tangipahoa Parish Council, | | _ | 121,144 | - | 121,144 |
| 2003 LCDBG Grant | | | <u></u> | 105,515 | 105,515 |
| Other Receivables | _ | | 35 | <u> </u> | 35 |
| | \$_ | 99,008 \$ | 121,179 \$ | 105,515 \$ | 325,702 |

The Enterprise Fund accounts receivable at December 31, 2004 consist of the following:

| | Utility Fund | | Housing Assistance Fund | _ | Total Enterprise Funds |
|-----------------------------|---------------------|-----|-------------------------------|-----|------------------------|
| Current | \$ 133,854 | \$ | 878 | \$ | 134,732 |
| 31 - 60 Days | 26,235 | | - | | 26,235 |
| 61 - 90 Days | 10,046 | | - | | 10,046 |
| Over 90 Days | 4,257 | | _ | _ | 4,257 |
| Subtotal | 174,392 | | 878 | | 175,270 |
| Less Allowance for Bad Debt | 5,550 | _ | <u> </u> | | 5,550 |
| Accounts Receivables, Net | 168,842 | | 878 | | 169,720 |
| Accrued Billings | 35,224 | | <u>-</u> | _ | 35,224 |
| | \$ 204,066 | \$_ | 878 | \$_ | 204,944 |

6. Interfund Receivables/Payables

The following is a detailed list of interfund balances reported in the fund financial statements on December 31, 2004:

| | Due From | Due To |
|---------------------------|-------------|-------------|
| | Other Funds | Other Funds |
| General Fund | \$ 302,674 | \$ - |
| Volunteer Fire Department | - | 10,697 |
| Utility Fund | - | 266,581 |
| Housing Assistance Fund | | 25,396 |
| | \$302,674 | \$ 302,674 |

The reason for the interfund receivables/payables balances is the General Fund pays payroll expenses and accounts payable for other funds. The interfund balances are repaid monthly.

As of and for the Year Ended December 31, 2004

7. Capital Assets

The Fown elected early implementation of UNARY in the Initial year ending December 31, 2002. However, as a Phase III government (a government with annual revenues of less than \$10 million), the Town elected not to retroactively report infrastructure assets prior to implementation. Historically, a government's largest group of assets, infrastructure assets (roads, bridges, street lighting, etc.) have not been reported nor depreciated in governmental financial statements. Beginning with the fiscal year ended December 31, 2002, these assets are now valued and reported within the governmental activities column of the government-wide financial statements.

Capital assets and depreciation activity as of and for the year ended December 31, 2004 for governmental activities is as follows:

| | Beginning | | | Ending |
|---|----------------------|--------------|-----------|-----------|
| | Balance | Increases | Decreases | Balance |
| Capital Assets Not Being Depreciated: | | | | |
| Land | \$ <u>271,515</u> \$ | | \$ | 271,515 |
| Total Capital Assets Not Being Depreciated | 271,515 | | | 271,515 |
| Capital Assets Being Depreciated: | | | - | |
| Buildings and Improvements | 886,500 | _ | - | 886,500 |
| Vehicles and Equipment | 508,052 | 52,730 | 20,166 | 540,616 |
| Infrastructure | 22,026 | | <u>-</u> | 22,026 |
| Total Capital Assets Being Depreciated | 1,416,578 | 52,730 | <u> </u> | 1,449,142 |
| Less Accumulated Depreciation for: | | - | | |
| Buildings and Improvements | 615,760 | 19,677 | - | 635,437 |
| Vehicles and Equipment | 342,991 | 39,531 | 20,166 | 362,356 |
| Infrastructure | 275 | 275 | <u>=</u> | 550 |
| Total Accumulated Depreciation | 959,026 | 59,483 | | 998,343 |
| Capital Assets Being Depreciated, Net | 457,552 | -6,753 | | 450,799 |
| Governmental Activities Capital Assets, Net | \$ 729,067 \$ | -6,753 \$ | - \$ | 722,314 |
| | | | | |

Depreciation was charged to governmental functions as follows:

| General Administration | \$ 21,023 |
|------------------------|-----------|
| Police Protection | 17,249 |
| Fire Protection | 7,418 |
| Streets and Sanitation | 13,793 |
| | \$59,483 |

Construction in progress for the 2003 LCDBG Sewer Project totaled \$881,971 at December 31, 2004.

As of and for the Year Ended December 31, 2004

Capital assets and depreciation activity as of and for the year ended December 31, 2004 for business-type activities is as follows:

| | Decimaing | | | Friding |
|--|------------------------|-------------|-----------|-----------|
| | Balance | Increases | Decreases | Balance |
| Capital Assets Not Being Depreciated: | | | | |
| Land | \$ 19,600 \$ | 1,500 \$ | \$ | 21,100 |
| Total Capital Assets Not Being Depreciated | 19,600 | 1,500 | | 21,100 |
| Capital Assets Being Depreciated: | | | | |
| Buildings and Improvements | 35,898 | - | - | 35,898 |
| Vehicles and Equipment | 180,636 | - | - | 180,636 |
| Water Utility System | 1,974,969 | _ | - | 1,974,969 |

| Gas Utility System | 544,119 | 15,038 | - | 559,157 |
| Sewer Utility System | 1,563,418 | 127,339 | | 1,690,757 |
| Total Accumulated Depreciation | 3,122,027 | 196,883 | <u>-</u> | 3,318,910 |
| Capital Assets Being Depreciated, Net | 3,448,201 | -183,518 | | 3,264,683 |
| Business-Type Activities Capital Assets, Net | \$ <u>3,467,801</u> \$ | -182,018 \$ | \$ | 3,285,783 |

8. Interfund Transfers

The following is a detailed list of interfund transfers reported in the fund financial statements on December 31, 2004:

| | Transfers From | Transfers To |
|--------------|----------------|--------------|
| | Other Funds | Other Funds |
| General Fund | \$ 355,000 | \$ - |
| Utility Fund | | 355,000 |
| | \$355,000 | \$ 355,000 |
| | | |

The reason for the interfund transfers is to reduce General Fund expenditures in excess of revenues.

As of and for the Year Ended December 31, 2004

9. Accounts, Salaries, and Other Payables

The Governmental Fund payables of \$220,584 at December 31, 2004 are as follows:

| | General Fund | Volunteer Fire Department | | 2003 LCDBG Capital Project Fund | (| Total Sovernmental Funds |
|----------------------|---------------------|-------------------------------------|-----|---------------------------------------|----|--------------------------------|
| Accounts | \$ 62,733 | \$ 2,470 | \$ | - | \$ | 65,203 |
| Salaries | 24,910 | _ | | - | | 24,910 |
| Vacation | 12,199 | - | | - | | 12,199 |
| Payroll Withholdings | 12,557 | - | | - | | 12,557 |
| Construction | - | · - | | 66,065 | | 66,065 |
| Retainage | - | - | | 39,450 | | 39,450 |
| | \$ 112,399 | \$ 2,470 | \$_ | 105,515 | \$ | 220,384 |

The Enterprise Fund payables of \$118,450 at December 31, 2004 are as follows:

| | Utility Fund | | Housing Assistance Fund | | Total Enterprise Funds |
|------------|-----------------|--------------|-------------------------------|-----|------------------------------|
| Accounts | \$ 85,60 | <u>54</u> \$ | 1,500 | \$ | 87,164 |
| Salaries | 5,24 | 17 | | | 5,247 |
| Vacation | 6,2 | 5 | - | | 6,215 |
| Sick Leave | 18,42 | 5 | - | | 18,435 |
| Sales Tax | 1,38 | 9 | - | | 1,389 |
| | \$ 116,99 | <u>o</u> \$ | 1,500 | \$_ | 118,450 |

10. Short-Term Debt

The Town had no short-term debt outstanding at December 31, 2004, and had no short-term debt activity during the year then ended.

11. Leases

The Town records items under capital leases as an asset and an obligation in the accompanying financial statements. The Town had no capital or operating lease activity during the year ended December 31, 2004.

As of and for the Year Enged December 31, 2004

12. Long-Term Obligations

The following is a summary of long-term obligation transactions for the year ended December 31, 2004:

| | | Governmental Activities | | | | Business-Ty | | | |
|-------------------|----|-------------------------|---------|----|---------|-------------|----|----------|--|
| | (| Capital | Revenue | | Capital | | | Revenue | |
| | 1 | Leases | Bonds | | Leases | | | Bonds | |
| Beginning Balance | \$ | - \$ | - | \$ | | - | \$ | 804,274 | |
| Increases | | - | - | | | - | | - | |
| Decreases | | | | | | | | (13,270) | |
| Ending Balance | \$ | \$ | | \$ | | | \$ | 791,004 | |

The following is a summary of the current (due in one year or less) and the long-term (due in more than one year) portions of the long-term obligations:

| | _ | Governmer | ital Activities | <u> </u> | Business-Type Activities | | | | | | |
|-------------------|----|-----------|-----------------|----------|--------------------------|------|---------|--|--|--|--|
| | | Capital | Reven | ue | Capital | | Revenue | | | | |
| | _ | Leases | Bono | is | Leases | | Bonds | | | | |

| 2030 - 2033 | | | 186,132 | 186,132 |
| | \$ | | 1,515,640 | \$ 1,515,640 |

As of and for the Year Ended December 31, 2004

13. Flow of Funds, Restrictions on Use - Utilities Revenues

The governing authority of the Town adopted a resolution on June 18, 1991, authorizing issuance of \$910,000 of Sewer Revenue Bonds. On June 1, 1992, the Town sold the \$910,000 authorized bonds to USDA Rural Development (RUS). The bonds were issued for forty (40) years payable with interest at the rate of five percent (5%) per annum. The bonds and any installment may be paid prior to the due date and maturity thereof at a price of par and accrued interest to the date of prepayment. The proceeds of the bonds are restricted and are subject to the provisions of the above resolution adopted June 18, 1991. As of December 31, 1993, USDA Rural Development had advanced all of the bond proceeds to the Town. Under the terms of the bond proceeds to the Town, the bonds are payable as to principal and interest solely from the income and revenues derived from the operation of the utility system of the Town after provision has been made for payment of the reasonable and necessary expenses of administering, operating and maintaining of the system. The bonds do not constitute an indebtedness or pledge of the general credit of the Town within the meaning of any constitutional or statutory limitation of indebtedness.

Each month there will be set aside into a fund called Bond and Interest Sinking (Redemption) Fund a sum equal to one-twelfth (1/12) of the interest due on the next interest payment due and, in addition, a sum equal to one-twelfth (1/12) of the next principal payment due, together with such proportionate sum as may be required as the same respectfully become due on such date. Money in the sinking funds shall be deposited as trust funds and shall be fully sufficient to assure the prompt payment of principal and interest installments as they become due, and may be used only for such payments. Alternately, RUS has set up a payment schedule of \$4,432 per month whereby the Town makes payments directly to its office. This eliminates the need for the Bond and Interest Sinking Fund.

There shall also be set aside into Utility System Revenue Bond Reserve Fund a sum equal to 5% of the monthly bond payment after the construction becomes revenue producing until there is accumulated therein an amount equal to the highest annual debt service payment in any future year. Such amounts may be used only for the payment of maturing bonds and interest coupons for which sufficient funds are not on deposit in the Bond and Interest Sinking Fund as to which there would otherwise be default. As of December 31, 2004, the Town has accumulated \$30,734 in this account.

Funds will also be set into a Depreciation and Contingency Fund after completion of the project at the rate of \$250 per month. Money in this fund will be used for the making of extraordinary repairs or replacements to the system which are necessary to keep the system in operating condition, enhance its revenue producing capacity or provide for a higher degree of service for which money is not available as a maintenance and operation expense. Money in this fund may also be used to pay principal and interest on the bonds falling due at any time there is not sufficient money for payments in the other bond funds. As of December 31, 2004, the Depreciation and Contingency Fund reserve had a balance of \$35,060.

All the revenues received in any fiscal year and not required to be paid in such fiscal year into any of the noted funds shall be regarded as surplus and may be used for any lawful corporate purpose.

14. Retirement Systems

Substantially all employees of the Town of Kentwood are members of the following statewide retirement systems: Municipal Employees Retirement System of Louisiana or Municipal Police Employees Retirement System of Louisiana. These systems are a cost-sharing, multiple-employer public employee retirement system (PERS), controlled and administered by a separate board of trustees. Pertinent information relative to each plan follows:

As of and for the Year Ended December 31, 2004

A. Municipal Employee Retirement System of Louisiana (System)

Plan Description. The System is composed of two distinct plans, Plan A and Plan B, with separate assets and benefit provisions. All employees of the municipality are members of Plan B.

All permanent employees working at least 35 hours per week who are not covered by another pension plan and are paid wholly or in part from municipal funds and all elected officials are eligible to participate in the System. Under Plan B, employees who retire at or after age 60 with at least 10 years of creditable service or at or after age 55 with at least 30 years of creditable service are entitled to a retirement benefit, payable monthly for life, equal to 3 per cent of their final-average salary for each year of creditable service. Furthermore, with at least 10 years of creditable service, but less than 30 years, an employee may take early retirement benefits commencing at age 60, with the basic benefit reduced 3 per cent for each year retirement precedes age 60, unless he has at least 30 years of creditable service. In any case, monthly retirement benefits paid under Plan B cannot exceed 100 percent of final-average salary. Final-average salary is the employee's average salary over the 36 consecutive or joined months that produce the highest average. Employees who terminate with at least the amount of creditable service stated above and do not withdraw their employee contributions may retire at the ages specified above and receive the benefit accrued to their date of termination. The System also provides death and disability benefits. Benefits are established by state statute.

The System issues an annual publicly available financial report that includes financial statements and required supplemental information for the System. That report may be obtained by writing to the Municipal Employees Retirement System of Louisiana, 7937 Office Park Boulevard, Baton Rouge, Louisiana 70809, or calling (225) 925-4810.

Funding Policy. Under Plan B, members are required by state statute to Contribute 5.0 percent of their annual covered salary and the Town of Kentwood is required to contribute at an actuarially determined rate. The current rate is 9.50 percent of annual covered payroll. Contributions to the System also include one-fourth of one percent (except Orleans and East Baton Rouge Parishes) of the taxes shown to be collectible by the tax rolls of each parish. These tax dollars are divided between Plan A and Plan B based proportionately on the salaries of the active members of each plan. The contribution requirements of plan members and the Town of Kentwood are established and may be amended by state statute. As provided by Louisiana Revised Statute 11:103, the employer contributions are determined by actuarial valuation and are subject to change each year based on the results of the valuation for the prior fiscal year. The Town of Kentwood contributions to the System under Plan B for the years ending December 31, 2004, 2003, and 2002 were \$8,099, \$14,560, and \$10,364, respectively, equal to the required contributions for each year.

B. Municipal Police Employees Retirement System of Louisiana (System)

Plan Description. All full-time police department employees engaged in law enforcement are required to participate in the System. Employees who retire at or after age 50 with at least 20 years of creditable service or at age 55 with at least 12 years of creditable service are entitled to a retirement benefit, payable monthly for life, equal to 3 1/3 percent of their final-average salary for each year of creditable service. Final-average salary is the employee's average salary over the 36 consecutive or joined months that produce the highest average. Employees who terminate with at least the amount of creditable service stated above, and do not withdraw their employee contributions, may retire at the ages specified previously and receive the benefit accrued to their date of termination. The System also provides death and disability benefits. Benefits are established by state statute.

As of and for the Year Ended December 31, 2004

The System issues an annual publicly available financial report that includes financial statements and required supplemental information for the System. That report may be obtained by writing to the Municipal Police Employees Retirement System of Louisiana, 8401 United Plaza Boulevard, Baton Rouge, Louisiana 70809-2250, or by calling (225) 929-7411.

Funding Policy. Plan members are required by state statute to Contribute 7.5 percent of their annual covered salary and the Town of Kentwood is required to contribute at an actuarially determined rate. The current rate is 21.50 percent of annual covered payroll. The contribution requirements of plan members and the Town of Kentwood are established and may be amended by state statute. As provided by Louisiana Revised Statute 11:103, the employer contributions are determined by actuarial valuation and are subject to change each year based on the results of the valuation for the prior fiscal year. The Town of Kentwood contributions to the System under Plan B for the years ending December 31, 2004, 2003, and 2002were \$22,575, \$17,628, and \$11,965, respectively, equal to the required contributions for each year.

C. Firefighters Retirement System of Louisiana (System)

Plan Description. Membership in the Louisiana Firefighters Retirement System is mandatory for all full-time firefighters employed by a municipality, parish, or fire protection district that did not enact an ordinance before January 1, 1980, exempting itself from participation in the System. Employees are eligible to retire at age 55 with at least 12 years of creditable service or at or after age 50 with at least 20 years of creditable service. Upon retirement, members are entitled to a retirement benefit, payable monthly for life, equal to 3 1/3 per cent of their final-average salary for each year of creditable service, not to exceed 100 per cent of their final-average salary. Final-average salary is the employee's average salary over 36 consecutive or joined months that produce the highest average. Employees who terminate with at least 12 years of service and do not withdraw their employee contributions may retire at or after age 55 (or at or after age 50 with at least 20 years of creditable service at termination) and receive the benefit accrued to their date of termination. The System also provides death and disability benefits. Benefits are established by state statute.

The System issues an annual publicly available financial report that includes financial statements and required supplemental information for the System. That report may be obtained by writing to the Firefighters' Retirement System Post Office Box 94095, Baton Rouge, Louisiana 70804, or by calling (225) 925-4060.

Funding Policy. Plan members are required by state statute to contribute 8.0 percent of their annual covered salary and the Town is required to contribute at an actuarially determined rate. The current rate is 24.00 percent of annual covered salary. The contribution requirements of plan members and the Town are established and may be amended by state statute. As provided by Louisiana Revised Statute 11:103, the employer contributions are determined by actuarial valuation and are subject to change each year based on the results of the valuation for the prior year. The Town of Kentwood contributions to the System under Plan B for the years ending December 31, 2004, 2003, and 2002 were \$0, \$1,191, and \$336, respectively, equal to the required contributions for each year.

15. Reserved and Designated Fund Balances/Net Assets

At December 31, 2004, the general fund had reserved fund balances of \$325,540, representing the Town's funds reserved for the construction of municipal buildings due to restrictions placed on the original bond issue used to construct a building which the Town later sold.

As of and for the Year Ended becomber 31, 2004

At December 31, 2004, the proprietary fund has restricted net assets of \$68,058, representing the Town's funds restricted by revenue bond debt covenants and contracts with customers for meter deposits, net of the related liability.

At December 31, 2004, the proprietary fund had designated net assets of \$191,662, representing the Town's funds designated by the Board of Aldermen to be used for planned repairs and capital improvements to the Town's natural gas system. Because the designated amounts represent planned actions, and not actual commitments, they are included in unrestricted net assets in the Town's financial statements.

16. Risk Management

The Town is exposed to various risks of loss related to theft, damage, or destruction of assets, torts, injuries, natural disasters, and many other unforeseeable events. The Town purchases commercial insurance policies and bonds for any and all claims related to the aforementioned risks. The Town's payment of the insurance policy deductible is the only liability associated with these policies and bonds. There has been no significant decrease in insurance coverage from the prior year, and the amount of settlements has not exceeded the insurance coverage for the past three fiscal years.

17. Contingent Liabilities

At December 31, 2004, the Town was not involved in any outstanding litigation or claims.

18. On-Behalf Payments for Fringe Benefits and Salaries

During the year ended December 31, 2004, the Town received the following on-behalf payments, which were recorded as revenues when received and expenditures when the cost was incurred:

State Supplemental Pay, Policemen

28,879

19. Prior-Period Adjustment

The following prior period adjustments were made to correct the beginning net assets in the government-wide financial statements and fund financial statements:

| Date | Description | | Amount |
|----------|---|-------------|-----------|
| 12/31/03 | Governmental Activities Net Assets, Beginning | <u> </u> | 2,466,588 |
| | Prior Period Adjustments: | | |
| | - Correct Beginning Cash Balance | | 39,600 |
| | - Record Accrued Sick Leave Convertible to Retirement Benefits | | (116,863) |
| | - Remove Assets With a Cost of \$500 From Depreciation Schedule | | (22,475) |
| 12/31/03 | Governmental Activities Net Assets, Restated | \$ | 2,366,850 |
| Date | Description | | Amount |
| 12/31/03 | Proprietary Fund Type - Utility Fund Net Assets, Beginning | - <u>\$</u> | 3,856,813 |
| | - Record Accrued Sick Leave Convertible to Retirement Benefits | | (18,435) |
| | - Record Land Addition From Prior Fiscal Year | | 8,600 |

Summary Schedule of Prior Year Audit Findings And Management's Corrective Plan for Current Year

Town of Kentwood Kentwood, Louisiana

Summary Schedule of Prior Year Audit Findings For the Year Ended December 31, 2004

Section I-Internal Control and Compliance Material to the Financial Statements:

All prior-year findings for Section I were finalized in the prior year.

Section II-Internal Control and Compliance Material to Federal Awards:

Reference Number: 2000-F1

Fiscal Year Finding Initially Occurred: December 31, 2000

Description of Finding:

Subsequent to the fiscal year ending December 31, 2000, the Town of Kentwood determined there was a question regarding the ownership of a housing unit receiving Section 8 Rental assistance. Since documentation, received by the Town of Kentwood, indicated that the actual owner of the unit was the tenant, a letter was forwarded to the tenant, by the Section 8 Administrator, demanding repayment of the funds paid for the Section 8 contract. The letter specified a deadline for contacting the Section 8 office. The PHA has notified HUD of this discrepancy. A total of \$9,900 was paid in rental assistance for the period in question.

The auditor recommended that the matter be followed up in accordance with recommendations of the HUD area office. The Town complied with this recommendation for the fiscal year ending December 31, 2000, by forwarding a copy of the findings to the District Attorney's Office. Since no action had been taken on this case, the auditor also recommended, for the fiscal year ending December 31, 2001, that a copy of the entire file for this case be transferred to the District Attorney's Office, along with a cover letter clarifying whether further action is required by the Town. The auditor noted for the fiscal year ended December 31, 2002, that documentation on this case had been forwarded to the District Attorney's Office, but the Town of Kentwood is awaiting response. It was recommended that an additional letter be forwarded to the District Attorney, requesting status on the case.

It was noted for the fiscal year ended December 31, 2003, that a letter, requesting status on this case had been forwarded to the District Attorney's Office and that the Town of Kentwood is awaiting response.

Corrective Action Planned (Response by Management):

The Town will contact District Attorney's Office requesting written status of case and any action required by the Town of Kentwood.

Corrective Action Taken: Partial

Additional Description of Corrective Action Taken:

In March 2005, the Town received correspondence from the District Attorney's office informing the Town that a Pre-trial Conference had been set for April 13, 2005. The Town is awaiting correspondence from the District Attorney's Office concerning the outcome of this Pre-trial Conference.

Corrective action is listed as partial, pending response by the District Attorney's Office

Town of Kentwood Kentwood, Louisiana

Corrective Action Plan for Current Year Audit Findings For the Year Ended December 31, 2004

Section I-Internal Control and Compliance Material to the Financial Statements:

No findings for Section I

Section II - Internal Control and Compliance Material to Federal Awards:

No findings for Section II.

Section III-Management Letter

No findings for Section III.

REPORT ON COMPLIANCE AND ON INTERNAL CONTROL OVER FINANCIAL REPORTING BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

The Honorable Mayor, Harold Smith and the Board of Aldermen Town of Kentwood, Louisiana

I have audited the basic financial statements of the Town of Kentwood, Louisiana, as of and for the year ended December 31, 2004, and have issued my report thereon dated June 23, 2004. I conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

As part of obtaining reasonable assurance about whether the Town of Kentwood, Louisiana's, financial statements are free of material misstatement, I performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, which noncompliance with could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of my audit, and accordingly, I do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

Internal Control Over Financial Reporting

In planning and performing my audit, I considered the Town of Kentwood, Louisiana's internal control over financial reporting in order to determine my auditing procedures for the purpose of expressing my opinion on the financial statements and not to provide assurance on the internal control over financial reporting. My consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control that might be reportable conditions and accordingly, would not necessarily disclose all reportable conditions that are also considered to a material weakness.

A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce, to a relatively low level, the risk that misstatements in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. I noted no matters involving the internal control over financial reporting and its operation that I consider to be a material weakness.

This report is intended solely for the information and use of the Mayor and Board of Aldermen of the Town of Kentwood, Louisiana, the Washington Parish Council, and the State of Louisiana Legislative Auditor. However, this report is a matter of public record, and its distribution is not limited.
